

PETRO FACTS

LUBRICANTS

SONIC* BLUE GUARD SONIC* MOLY GUARD SL & SONIC* FLOW-RITE MULTI-PURPOSE GREASES

SONIC* BLUE GUARD

is available in:

- 180 kg drums
- 17 kg pails
- 55 kg kegs
- 400 gram cartridges in packs of 10 with 4 packs in a case

SONIC* MOLY GUARD SL

is available in:

- 400 gram cartridges in packs of 10 with 4 packs in a case
- 55 kg keg

SONIC* FLO-RITE

is available in:

- 17 kg pails
- 55 kg kegs

DESCRIPTION

SONIC* BLUE GUARD is a premium quality, lithium complex, multi-purpose grease. It has excellent performance in the areas of rust and oxidation resistance, anti-wear, and extreme pressure.

SONIC* MOLY GUARD SL is a premium quality, semi-synthetic, lithium complex, multi-purpose grease. It offers excellent performance at low temperatures and can be used in applications that call for up to 3% molybdenum disulphide (moly).

SONIC* FLOW-RITE is designed for automated greasing applications.

FEATURES & BENEFITS

SONIC* BLUE GUARD

- **NLGI CLASSIFICATION GC-LB - GRADE 2**
GC-LB is the highest possible standard for a multi-purpose grease.
- **WATER WASH-OFF RESISTANCE**
Excellent resistance to water wash-off.
- **HIGH DROPPING POINT**
Stays stable even at high temperatures.
- **EXTREME PRESSURE ADDITIVES**
Ensures protection under heavy loads.
- Compatible with most lithium grease.

SONIC* MOLY GUARD SL

- **NLGI CLASSIFICATION GC-LB - GRADE 1.5**
GC-LB is the highest possible standard for a multi-purpose grease.
- **WATER-RESISTANT**
Excellent resistance to water wash-off.
- **FLUIDITY**
Pumpability to -40°C and performance to -50°C.
- **EXTREME PRESSURE ADDITIVES**
Ensures protection under heavy loads.
- **MOLY APPLICATIONS**
Recommended for "moly" application - contains 3% moly.
- **SYNTHETIC BLEND**
Works equally well at low or high temperatures.
- Compatible with most lithium grease.

SONIC* FLOW-RITE SL

- **NLGI CONSISTENCY #00**
- **WATER WASH-OFF RESISTANCE**
- **EXTREME PRESSURE ADDITIVES**
Ensures protection under heavy loads.
- **COMPATIBILITY**
Compatible with most competitors' greases.

LUBRICANTS

APPLICATIONS

● *Manufacturers' Requirements Pertaining To:*

- Wheel Bearings
- Universal Joints
- Various Industrial Applications
- Ball Joints
- Automated Lubricator (FLOW-RITE only)
- Electric Motors
- Multi-purpose applications where a standardized product is required
- Clutch Throwout Bearings
- Chassis Fittings
